## DAYTON IS AFTER COX NOTIFICATION

Ready To Go To Any Expense And Work Necessary to Stage Cox Notification Ceremonies

BY HOOD FRIENDS FAVOR NAMING DAYTON

Democratic Chiefs to Hold An Important Conference Within Few Days.

(By Associated Press.)

Dayton, O., July 8.—Governor Cox, the democratic candidate for president, after working a few hours in his newspaper office this morning, expects to pilot a number of visiting newspaper men about the home and haunts of his early boyhood at Jacksonburg, near Middletown, Ohio. The trip will be made by automobile.

It now is expected that when Franklin D. Roosevelt, Governor Cox's running mate, arrives from San Francisco, ensuing conferences will result in more than the mere exchange of felicitations.

Homer S. Cummings, chairman of the Democratic National Committee; E. H. Moore, of Youngstown, the Governor's pre-convention campaign manager, and a number of other party leaders are expected to participate in the conferences.

Dayton citizens are apprehensive that an effort may be made to have the notification ceremonies take place in Columbus, and they are prepared to go the limit if necessary to nullify such an arrangement.

From present indications the notification ceremonies probably will take place at Trail's End, the Governor's suburban home.

The Governor last night made his second public address, at the Dayton Country Club, at a dinner for the Ohio Golf Association.

He spoke in cordial terms of his Republican opponent, Senator Harding, declaring that regardless of the result of the election, he and Senator Harding will remain the same old friends as in the past.

Johnson confirmed the statement of the Lowden treasurer that he had received \$9,000 from the Illinois governor's campaign chest. He set his own expenditures in Georgia at \$20,000. He charged the Wood supporters had spent \$60,000 and also accused the democrats of spending large sums and buying votes at \$5 to \$5,000 each in local elections.

## TO STOOP OVER MADE TIFFIN MAN AWFULLY DIZZY

Machinist says his liver was sluggish, bowels constipated, gas bloated his stomach. Declares two bottles of Dreco gave prompt relief.

"I used to have difficulty in keeping on the sidewalk because I'd get so dizzy I'd stumble along like I was drunk," said Mr. William Allwine, the well known machinist residing at 142 East Railroad St. Tiffin, O.

"After each meal my stomach would fill up with gas, making me very uncomfortable. I couldn't enjoy sitting around home at night on account of the gas. My stomach burned like it had fire in it. My bowels were bound up; liver was very sluggish; my tongue had a thick coat on it all the time and my breath was bad. I got nervous so that my sleep was broken and my appetite was very poor.

"Though I had taken much medicine, none seemed to reach my troubles but two bottles of Dreco have cleaned me out fine and I feel better than I have in years. My liver is active, bowels more regular; no more gas troubles me; I have a good appetite and sleep fine. Dreco surely benefited me."

Dreco is made from the juices of twelve different herbs, roots, barks and leaves, which act directly on the stomach, liver, kidneys, bladder and the blood, and tends to relieve constipation, headaches, rheumatism, catarrh, biliousness, dizzy spells, heart fluttering, gas on the stomach and other troubles.

All good druggists now sell Dreco and it is being especially introduced in Washington C. H. by Frank Christopher.—Advt.

## FARM FEDERATION AND WOOL GROWERS TO HOLD PRODUCT

Ohio wool growers will stand pat and not be stampeded into selling their wool at present prices if counsel of representative wool men and Farm Bureau Federation leaders prevails.

It is pointed out that, whereas wool prices have slumped heavily, woolen goods are still as high as ever. Also, it is asserted that the price of wool has little effect on the price of manufactured goods.

Last year, figures kept over show, wool sold for from 65 to 90 cents a pound. This year, according to growers, there seems to be no actual price and buyers are making no bids. Wool growers say that if wool should be

sold now it would bring scarcely half of last year's prices. Bankers, it is said, generally advanced about 75 percent of the probable selling price of wool in storage. Just now it is reported that Wyoming and Idaho producers are able to obtain advances of only 10 to 15 cents a pound. In Ohio, where wool is of better quality, where farmers have top credits, and where personality counts for as much as assets, wool men say they can obtain 25 to 45 cents a pound advance.

## HIGHLAND MAKES SUBSTANTIAL GAIN

Highland county personal property made an increase of \$1,024,220 over the valuation of the previous year, according to figures just tabulated by the auditor of that county.

Nearly \$200,000 of the gain was due to listing chickens, there being 206,301 chickens listed in the county.

Commenting on the figures the Hillsboro Dispatch says:

"Only one township has reported a loss, that is Fairfield, which is doubtless due to some large estates which have been settled during the year. Of the townships Paint can boast of \$130,660 gain, and Leesburg has made the largest gain in proportion to the population, being \$115,520. Greenfield has made the largest gain of all of the districts.

The figures given do not include the banks, corporations or public utilities, which will add greatly to the duplicates. Also the board of revision has not completed its work and this will make another addition of perhaps one hundred thousand dollars. The gain in the duplicate is larger this year than on any former occasion."

## ONE CONTRACTOR SPREADING TAR

A marked forward step was taken this week in the Columbus pike improvement when Neff and Rader, contractors working at the farthest end of the road, started to spread the first coat of tar. Following the application of the first coat the binder course is to be applied and the sand dressing pressed in with the heavy steam roller.

Freight shipping will be the only factor in the work that may hold up the tar application but Neff and Rader state that they will be able to complete their section of the pike by the first of October, if they are able to secure materials at all.

The other contractors are preparing to lay tar within a short time and hope to complete their sections before the approach of winter.

## A Neat Courtesy

Senator Harding says "Governor Cox's nomination is an added consideration shown to our great state of Ohio, for which I am glad, and gives reasonable assurance that finally a newspaper man is to be made the nation's chief executive. Ohio has accorded Governor Cox very unusual distinction, and he deserved his notable victory at San Francisco. His nomination will not change our activities in any way in Ohio. It is a great party contest before us, to be fought on great principles involved, and neither place of residence nor personality will have any marked influence on the result."

That statement of Senator Harding is proof of the high ideals and broad, generous impulses which control his conduct. It stamps him as a really big man who not only can, on occasion, but does, involuntarily rise above the petty rivalries and jealousies. It stamps him as a man who places his state and his nation, their needs and demands above his personal ambitions. It proves him to be a man who recognizes and is not afraid to acknowledge that his political opponents are worthy, patriotic Americans although they honestly differ with him.

Senator Harding, at the outset of the campaign, has chosen the high ground upon which to stand and we all sincerely hope that no development of a campaign, which promises to be strenuous, will force him to "come down."

It was a fine courtesy typical of a real American. More of that kind of conduct would lift our politics out of the mire into which selfish men have plunged in the wild scramble to gratify their ambitions.

## Disappointing

The city council met in regular session Tuesday night and it is disappointing to note that several important matters were not given the attention the people's interests merited or any attention at all.

Perhaps the most vital action which council should have taken and neglected entirely was that which would bring better grade crossings—at least passable crossings—on the streets where the B. & O. tracks cross the highway.

Notwithstanding the clear cut opinion of City Solicitor Junk that the only thing necessary to do away with the abominable and dangerous B. & O. crossings was action by council, the city's legislative body took absolutely no action Tuesday night. Conditions that have been both an annoyance and a danger to life are allowed to continue without any effort being made by council, under its clearly defined right, to better them.

Council has done some good work during the past two years but drifting into a course of non-attention on important details simply because they do not involve the expenditure of large sums of money will soon cause people, in their maddening helplessness over a do-nothing policy, to forget the good that has been done and remember only the aggravations of the present.

## The Fourth

America had great cause to celebrate with joyous acclaim, with fire crackers and noisy explosives by day and with sky-rockets and other spectacular and beautiful creations to illuminate the heavens by night.

America had cause on Sunday, the real calendar fourth, to sing anthems to the Giver of all things and to listen to sermons of patriotic thanksgiving spoken by pulpit orators. America had cause on Monday, the fifth, to knock off for a day and think of our glorious nation, what it is and what it guarantees to us; to listen to a recounting of the deeds of those who made all this possible, to collect in groups and go picnicking, to listen to band concerts, to witness athletic contests and indulge in any one or all of the numerous methods by which we testify to our patriotism.

America did jolly on the fourth and the fifth, one the real anniversary and the other the legal holiday, and America feels better for having placed her annual tribute on the altars of history. Never did any people have better cause to be happy in the commemoration of any event than did the American people last Sunday and Monday and they made the most of it too.

## POETRY FOR TODAY

### TWILIGHT

When I was young the twilight seemed too long.  
How often on the western window seat  
I leaned my book against the misty pane  
And spelled the last enchanting lines again;  
The while my mother hummed an ancient song,  
Or sighed a little and said, "The hour is sweet!"  
When I, rebellious, clamored for the light.

But now I love the soft approach of night,  
And now with folded hands I sit and dream  
While all too fleet the hours of twilight seem;  
And thus I know that I am growing old.

O granaries of age; O manifold  
And royal harvest of the common years!  
There are in all thy treasure house no ways  
But lead by soft descent and gradual slope  
To memories more exquisite than hope.  
Thine is the iris born of olden tears,  
And thrice more happy are the happy days  
That live divinely in the lingering rays.

## CONFERENCES IN OPEN AISLES THE ONLY KIND

No White House Domination  
Forced The San Francisco  
Nomination.

Machine Organization Working  
In Open Returned Cox The  
Winner.

BY MARK SULLIVAN  
(Copyright 1920)

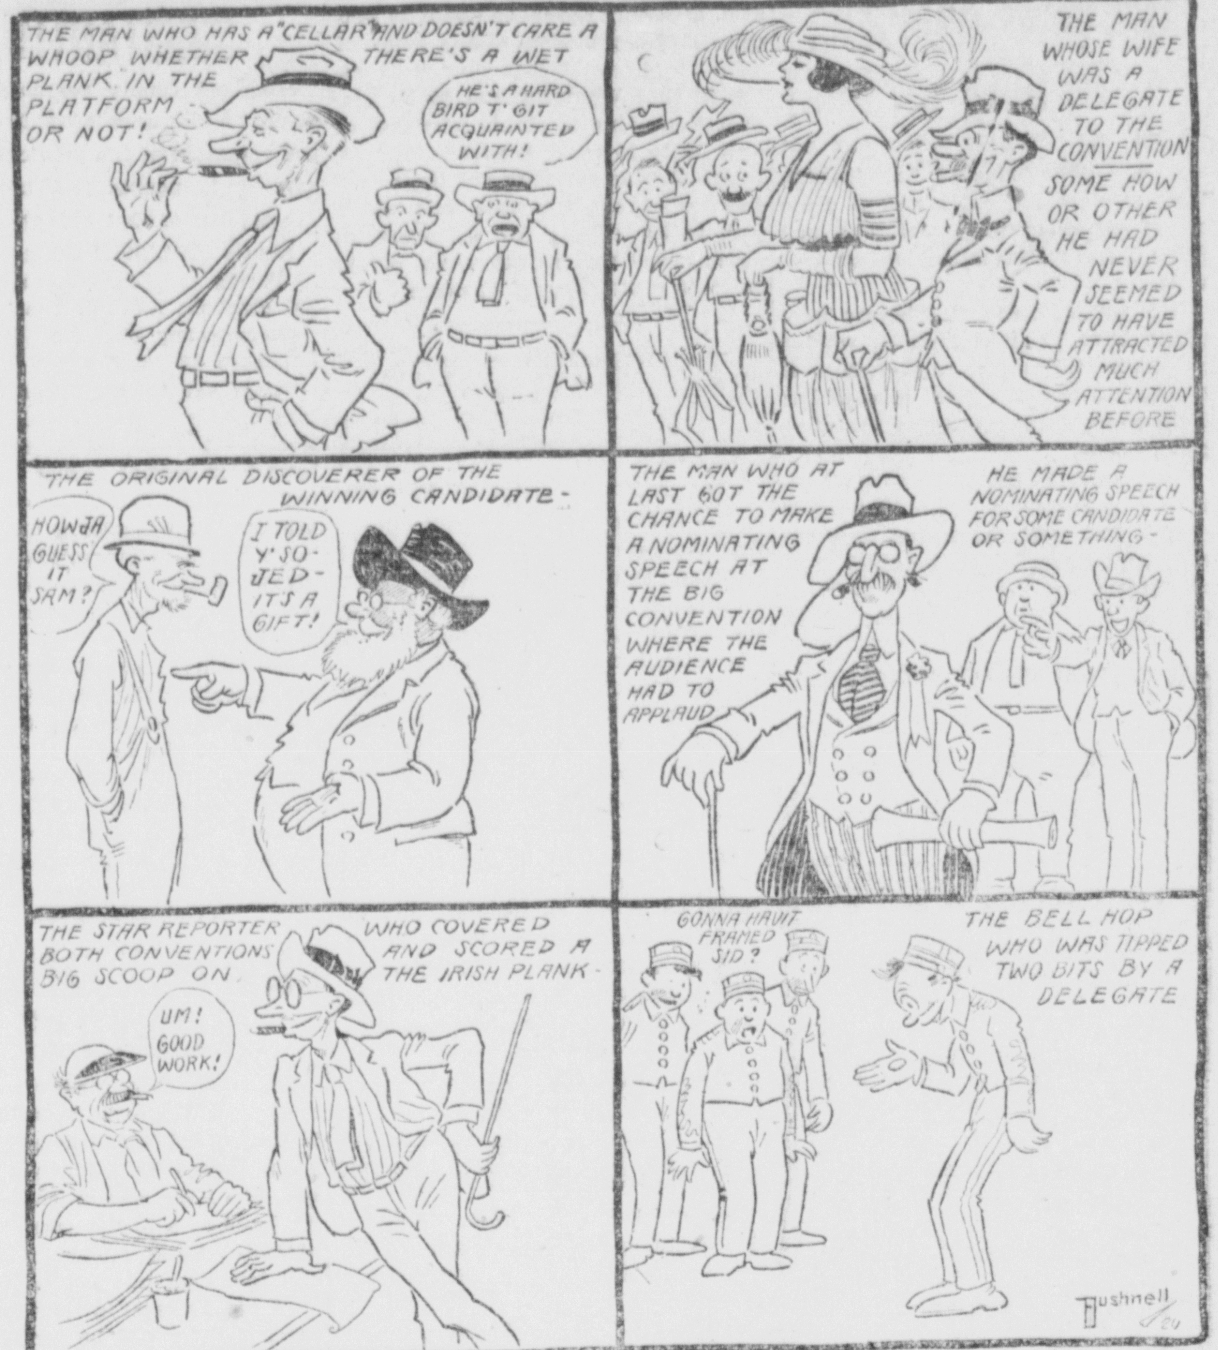

San Francisco, July 6.—There should be no misunderstanding such as would do injustice either to Governor Cox or to President Wilson or to the Democratic party. Doubtless the Republican papers will say that the bosses dominated the nomination and named Cox, and it is true. They did. But several implications will be read into that are not true. In the first place it was in kind of domination that most of the Republican papers predicted and were ready to gloat over. It was not domination by President Wilson, there was no one of the things that the Republican papers have been predicting with so much frenzy, "No Crown Prince," "no perpetuating the dynasty," "no White House dictation." Also, while it is true that the bosses did name Cox, it is also true that they did it in the open. There were no conferences in closed rooms. Murphy and Brennan and Taggart and Marsh did all their conferring in the open aisle of the convention. They supported Cox frankly. They voted their delegations for him solidly ballot after ballot. It was above board for all the world to see.

And while Cox was nominated by Tammany and the Illinois machine and the New Jersey machine and the Iowa machine and by the "wets" generally, he was nominated by them only in the sense that they supported him continuously and kept him a position to be the beneficiary of the convention's final burst of anger against McAdoo, and at no time did these elements have a majority of the convention. At no time did they really have more than 400 out of the 1030 votes. The last 300 that put Cox over were supplied by "dry" delegates, who really didn't want Cox at all, and who took their political lives in their hands with their folks at home when they voted for a "wet." But they were overcome by exasperation against McAdoo and took the only means at hand to humiliate him.

McAdoo was the evil genius of the convention. The delegates had shown him again and again that they didn't want him. There is a well understood rule of manners in conventions that whenever a candidate rises to a certain point and slips back, he is supposed to quit. It is a hint that he is not wanted. He is supposed to take the hint and quit and give the convention a chance to vote for somebody in his place. Or, dimly, this only happens once, but with McAdoo it happened again and again and again and again. First, the convention gave a bored yawn which was meant as a signal to McAdoo. When that didn't impress him, the convention gave him a hint to go. When he still stayed, they pointedly remarked that they preferred someone else in his place. When he still didn't go, they laid hands on him and tried to throw him out the door. But he clung with bony fingers to his chair. But that time the convention didn't want him to go. They wanted to keep him in the room. The reason they wanted to keep him in the room was that they wanted the pleasure of rolling him on the floor and stamping on his face.

For thirty-eight ballots the convention kept hoping that McAdoo would remove himself and make possible a combination between the Palmer delegates and the McAdoo delegates, which would enable them to name a candidate who would be "dry" and would be acceptable to the administration. Everybody knew that Palmer was eager to do that, but McAdoo stubbornly held out. Finally when Palmer himself withdrew, that was a signal to the convention that he had given up hope of making any combination with McAdoo, and that there was no possible hope of McAdoo withdrawing and permitting his delegates to vote for somebody else. When the convention realized the full extent of McAdoo's cupidity reached a peak of exasperation with McAdoo which made them determine to take Cox, whom they liked little in order to punish McAdoo, whom they liked less. The Cox managers were the last to know what was coming. Indeed, nobody believed at the time that Cox was going to be named. At the very moment when the break came, the Cox managers tried

## POST-CONVENTION CELEBRITIES

to get an adjournment over night, so that they could have an opportunity to try to deal with McAdoo. In their utter astonishment, the convention refused to take the adjournment and proceeded to name Cox with a rush.

## Dining Room Economy

THERE was a time when you had to accept a floor-covering for the dining room that was far from ideal. Now that you can get Sanolin, the question of what to use on your dining room floor is delightfully answered. Beauty is combined with cleanliness; low price is linked with durability. Sanolin lies flat on the floor without fastenings of any kind; does not crack, buckle, or crawl; is not affected by extreme heat or cold; has a thicker wearing surface than any similar floor-covering, and its patterns remain bright longer. In fact, Sanolin out-wears even the best printed linoleum.

A happy selection of an attractive Sanolin pattern is easily made for every room in the house.

Sanolin is guaranteed to give satisfactory service.

Mr. Glenn Wilson entertained at his handsome country place Wednesday evening, in honor of his three brothers-in-law and their wives, Prof. and Mrs. William J. King, of Annapolis, Md., Mr. and Mrs. Hayward G. King and Mr. and Mrs. James King of Good Hope.

It was an exceptionally beautiful summer party, with the large home radiantly en fête and baskets of catalpa blossoms an especially pretty feature of the decorations.

Origin of the fire has not been determined but the flames are believed to have started in a defective flue. Before help arrived the blaze spread rapidly and soon caught in the home of the owner which adjoins the store.

## SUMMARY FOR THE CORN AND WHEAT REGION STATES

Rain occurred again over the greater portion of the region although mostly light and scattering from Lake Michigan and Illinois westward while thence eastward the fall was heavy to excessive in many places. The temperature is now below normal except in the extreme east and the cool weather is expected to continue through the next two days but the temperature will begin to rise over the Northwest on Thursday.

Near normal temperatures, moderate to heavy rains and ample sunshine combined to make weather conditions favorable for the rapid growth of meadows, pastures, gardens and crops generally, and for field work except that it was too wet in some sections and haying was somewhat delayed by the showery weather of the first part of the week. The progress and condition of corn were satisfactory to very good and most corn fields are now clean and well cultivated. Winter wheat made satisfactory development and is now ripening in all sections of the state. Harvesting is fairly general in southern and has begun in central sections. Some fruits, especially late apples, continue to drop in some localities but as a rule the fruit crops are good to excellent. Gardens are fine.

Summary of weather and crop conditions in the corn and wheat region for the week ending July 6, 1920, sent out from Washington is that the weather was favorable to agricultural interests in most sections except that work was delayed by heavy showers in a few north-central districts. The moisture was sufficient except in a few sections of central and northeastern states. The temperature was rather too cool for corn in the north central states but higher temperatures were favorable where the moisture was sufficient in central and southwestern sections. Winter wheat made satisfactory progress in the northern portion of the winter wheat belt and in the elevated western districts while excellent progress was made with the harvesting in the central states under favorable weather conditions. Spring wheat made very good to excellent progress in practically all sections of the spring wheat belt and its condition continues mostly excellent. Other small grains continue in a mostly satisfactory condition. Potatoes, truck crops, pastures and ranges have improved generally except that it was too wet for potatoes in Minnesota and northern Maine and the moisture was deficient in some localities in the central Ohio Valley and southeastward. Stock is in an unusually satisfactory condition.

## ALL CEMENT WORK NEAR COMPLETION

Officials of the Andrews Asphalt Paving Company stated Thursday morning that four more working days without rain would see the completion of the cement work for paving in this city. At the end of that time the asphalt plant is expected to arrive from Lima where it has been in operation.

The plant was due to arrive here the first of July but has been held up because of oil, which is used in manufacturing the asphalt and a shortage of which has delayed the completion of the contract in that city.

Lack of materials will not be a source of worry or delay when the plant arrives. Almost all the sand and gravel needed is on the sidings, or piled along the tracks while oil, or flux, as it is more accurately termed, has arrived to the extent of five carloads. Only seven carloads are necessary and these have been provided for.

## NORTH DAKOTA CROP PROSPECTS

Fargo, N. D., July 8.—Crop conditions in North Dakota are better than they have been for several years. Small grains in the Red river valley are reported in excellent condition, sufficient rains falling in that section to reduce materially the grasshopper menace. In the western part of the state small grains also are in good condition, but the rainfall there has been light and farmers are apprehensive on account of the grasshoppers. In 1920 small grain acreage in the state is 20 per cent less than last years.

## KANSAS CROPS WILL BE BUMPERS

Topeka, Kan., July 8.—Almost ideal conditions the last few weeks have prevailed for crop planting and growth in Kansas. The condition of practically all crops is declared "excellent" by both federal and state authorities. In the last two months official estimates on the wheat crop now being harvested, have increased from 92,000,000 bushels to 111,000,000.

## CHINESE OPPOSE THE JAPANESE ABOUT SHANTUNG

Tsinan, Shantung Province, China, (By Mail)—While the Shantung problem remains unsolved and the Japanese occupation of areas Germany formerly controlled continues a means to oppose the Japanese has been worked out along economic lines. Chu Ying-kuang, civil governor of the province.

Chu Ying-kuang, who has come to be regarded by foreigners of the Far East as one of China's greatest administrative figures, has launched the daring project of building within Shantung a great system of highways to be used by an automobile truck service in connecting all important centers. As a colliery he plans to deepen and improve waterways so that these roads and streams will afford to the Chinese of the province a transportation system that will place them on an equal footing with the Japanese who now control channels of communication.

the newly created Bureau of Roads and Waterways in Shantung, active surveying work in connection with the project has been started out of Tsinan and present plans contemplate the building of 1600 miles of highways and the deepening of the Hsiao Ching river. The purpose is to weave all important cities of the province into a unified transportation system.

Under existing conditions many of these cities, as for example the port of Chefoo, are hamstrung economically by the lack of adequate transportation facilities. The Chinese hope the plan will break the backbone of Japan's economic domination in Shantung.

Governor Chu's proposed motor road system touches the sea at three points, Lung K'ou, Chefoo and Hai Yang and connects with the Tientsin and Pukow railroad at a point not yet determined. The whole road system is made up of seven trunk highways connected by 10 branch highways.

A scheme of financing to carry out the big project by which funds to do the work will be supplied in part by merchants, land owners and others to be benefited and in part by the provincial government, according to official announcement, has received widespread endorsement throughout the province.

## USE AIRPLANES FOR CAMPAIGNING

Winnipeg, Man., June 29.—Airplanes, used for advertising purposes will feature the election campaign of the members of the Manitoba government, who will seek re-election under the leadership of Premier Norris this summer. This unique method of conducting electioneering is new and is claimed by officials of Norris government to be the first attempt to use it in the world. Edward Brown, Provincial Treasurer in the present cabinet, recently took a flight over Winnipeg and expressed himself as highly delighted with the possibilities of airplanes in the campaign.

Two machines are already engaged in the enterprise. They will touch at least one town in every constituency. Campaign literature will be dropped from the airplane as it circles over the town. After landing, the government supporter in the machine will address the crowd that gathers to meet it. Supporters of Premier Norris are enthusiastic over the scheme.

The machines at present engaged display an appeal urging voters to support the government.

BOYS, do YOU KNOW

that EDMONT CRACKERS  
are the BEST KIND of BREAD

When Uncle Sam picked men for his army, he also picked foods that would keep them picked and ready for the strenuous duties ahead of them.

His men who studied the value of Edmont crackers as bread that was pure and wholesome, and made them better men—physically fit, mentally alert, and energetic.

That's why our boys at the front, in the trenches, in the camps, ate crackers, the bread that kept them going, and made them better men—physically fit, mentally alert, and energetic.

EDMONT CRACKERS

are made by the process which was the only one rated by the United States Government for its Endorsed Biscuits.

You know how good Edmont Crackers taste on the hills or in the trench. You know how good they taste just as good or better, served with butter, at your table every night. Try it out. I know that you will prefer Edmont Crackers to any other bread or better. Then, if you like, get them in bulk or in small packages or in boxes or in tins. And speaking of tins, just try Edmont Crackers and you'll see.

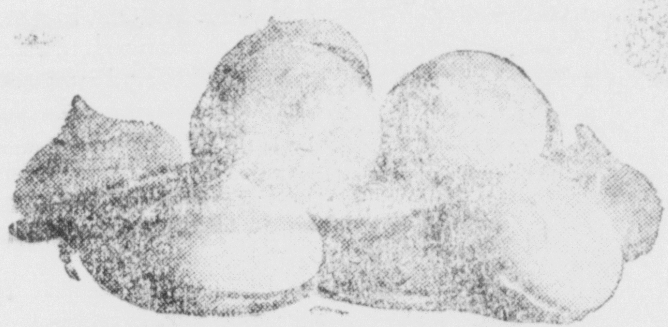

ALWAYS CONVENIENT

Just as the crackers for our soldiers kept them fresh in tin, so Edmont Crackers for the family's every meal keep crisp and creamy in the family tin. Add, mother to have a tin in her pantry.

For a hike or a day out of doors, for a long or week-end trip, you'll find Edmont Crackers convenient and perfect in every way. Your neighborhood grocer also has Edmont Crackers by the pound as well as in family tins or cases.

Buy your crackers as you like, but don't get Edmont Crackers. For they, the original and better crackers, are unusually good, and truly economical. They are Edmont Crackers to the pound. Look for the name "Edmont" on the raised butter crackers you buy, and accept no other—none just as good. Get the kind that are as pure and wholesome as the crackers our soldiers ate.

Their dainty colors, cherry pink and lemon yellow, appeal to the eye; while the delicate flavor of these delicious cakes satisfy the summer-time craving for sweets.

Taste-pleasing are these baked confections—out-of-the-common combinations of rich little sugar cakes and fluffy marshmallows, velvety smooth.

Delightful when served with frozen dainties, fruits, or summer beverages—or when eaten as a dessert.

## HOWARD DEWITT FUNERAL RITES HELD WEDNESDAY

Deep tribute by friends without number was paid to Howard DeWitt, son of Mr. and Mrs. Grant DeWitt, who was fatally injured in an auto race at Toledo last Sunday afternoon and died a few hours later in a Toledo hospital, in funeral services at Grace Methodist Church Wednesday afternoon at two o'clock.

Long before the hour set for the services the huge auditorium was filled to overflowing with an audience, many of whom were young men and women, composed of persons from every walk of life and who had come for the last time to pay homage to a true friend and lover of humanity.

Covered deep in great masses of blossoms of every design and variety the scores of floral offerings were beautifully arranged and completely enveloped the casket and rostrum in a wealth of bloom.

The sermon by Rev. William Boynton Gage, Pastor of the First Presbyterian Church who officiated in the absence of Rev. Karl B. Alexander, was of full tenderness.

He read the 90th Psalm and referred to it as a great solace in the hour of deep sorrow and grief.

In speaking of the life of Howard DeWitt, Rev. Gage said that he had known him, a boy who had declared his faith in the Great Power and who had not been afraid to stand before an audience and profess his belief when a lad in the Methodist church. He spoke of the young man's great love for children and how they gathered around him.

The minister spoke with admiration of the patriotism possessed by the young man when he had heard the call to world service in the first days of our country's entrance into the Great World War; how with his brother, Jack, he had enlisted but because of pulmonary trouble he had been

told that the life of a soldier was not for him and how keenly he had felt the disappointment when he was discharged because of physical disability, how later he had attempted to join the French Army and serve under the Tricolor but how he had met with the same rebuke.

With touching tenderness and a great depth of meaning Rev. Gage read the hymn, "Sometime We'll Understand."

Floralbearers were: Smith Macy, St. Louis Hall, Conner Dunlap, Dean Powless, Lawrence Fletcher, Ralph Mayer.

While the audience was being seated and while it filed out of the church Miss Minnie Light played softly at the organ.

Following the services at the church a long concourse of automobiles followed the body to Washington cemetery where short ceremonies were held and interment made.

In the great profusion of flowers there were special designs and baskets that bore the following names:

"The Boys," Mr. and Mrs. Frank DeWitt and Mr. and Mrs. Frank Thornton; W. E. Palmer and family; Robert Lanum, Mr. Kearns, Lewis Ramsey, and Dean Powless; Albert Briggs and Emerson Chapman; Mrs. Donaldson and Miss Jane Donaldson; Conner Dunlap; "Friends and Neighbors;" The Tire and Rubber Shop; The Powell Auto Co. and employees; Employees of the Orman Motor Company; Inter-city Motor Sales Co., Miss Edith Rouch, of Norwood; Russell McKee, of Akron.

There was also an endless number of floral offerings of the choicest cut flowers and blossoms which were heaped upon the casket and which were emblematic of the friendship in which the young man was held, not only in this city and county but where ever he was known.

Among those who attended the services from out of town were: Mr. and Mrs. Charles Bowdell, daughter, Miss Ruby and son Roscoe; of Exton, Ind.; Mr. and Mrs. Eric Parrot, of Good Hope; Mrs. A. H. Jasper of Good Hope; Mrs. Donaldson and daughter, Miss Jane, of Sabina.

### CARD OF THANKS

We desire to express to our many friends our deep gratitude and appreciation for their many kind acts, for sympathy, extended and flowers sent during our deep sorrow in the death of our beloved Howard.

AND FAMILY.

MELVIN BECOMING  
REAL STONE CENTER

Melvin, in Clinton County promises to become famous as a place for crushed stone. The Chagell crusher is putting in place a mammoth steam shovel and other work to give an immense output.

The Interstate Commerce Commission has rescinded its order that coal cars be forthwith returned to the mines as fast as emptied, so these can be loaded with crushed stone if unloaded before reaching the mines. This gives an ample supply of cars as the product of both crushers go to building the Columbus pike from Bloomingburg east. No car can be loaded to go west farther than Midland City. The County Commissioners get an occasional load for pike repairing.

At the Custis quarry scales are being put in that will weigh the biggest trucks and their loads.

BIG DOUBLE CIRCUS  
IN NEARBY CITIES

This locality has entertained many circuses, but never anything to compare with the glitzy double shows billed as Ringling Brothers and Barnum & Bailey Combined which will exhibit afternoon and night at Springfield, Saturday July 24 and Columbus, Thursday, July 22.

The merging of these mammoth institutions in one circus of colossal size, constitutes the amusement surprise of the century. Nothing to approach this gigantic, new circus has ever before toured America. It has been formed by merging the pick and the cream of all that was biggest and best in the two famous shows. It would be folly to attempt to enumerate its many wonders. Some idea of the enormous scale upon which features are presented may be had when it is stated that a quarter of a million pounds of elephants take part in a single act. In other words—six times as many of the big-eared giants than have ever before been seen in one main-tent exhibition. The acrobatic stars embrace all the world's foremost circus performers. There are three hours of novelties and big sensational acts. The managerie is far and away the most colossal ever traveled. For instance—a herd of eight giraffes are exhibited in place of the two or three shown in the past. The great tournament which opens the main-tent program, is the most magnificent thing in pageantry yet produced in America. Hundreds upon hundreds of gorgeously costumed characters and beautiful horses take part in it. The morning street parade is the longest and most brilliant ever given anywhere and offers something entirely new and novel in processionary display. It is a stupendous, double-circus that baffles description.
